SUMMARY

Final-year Information and Communication Technology student with hands-on experience building and deploying production-ready full-stack web applications using Django, PostgreSQL, and REST APIs. Built three live applications spanning blogging, e-commerce, and job-portal domains, integrating OAuth authentication, payment gateways, and multilingual support. Seeking a Full-Stack or Backend Developer internship/entry-level role.

TECHNICAL SKILLS

Languages: Python, JavaScript, basic C, basic Java, basic C++
Frameworks: Django, Django REST Framework, Bootstrap, Tailwind CSS
Databases: PostgreSQL, SQLite, MySQL
Cloud & Tools: Render, Supabase, Cloudinary, Git, GitHub, VS Code, Postman
Concepts: REST API Design, OAuth Authentication, Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

Articlio - Blogging Platform 2025 – 2026

Django 5.2, PostgreSQL, Tailwind CSS v4, OAuth (Google/GitHub)

- Built and deployed a production-ready blogging platform with OAuth authentication, role-based access control (Reader/Author), and a 5-theme dynamic theming engine.
- Implemented nested comment threads, reading-progress tracking, bookmarking, and SEO-friendly dynamic slugs for content discovery.
- Improved performance using a Bloom Filter for instant username validation and session-based view tracking to prevent traffic inflation.
- Configured CSP security headers and WhiteNoise caching for production; live at articlio-nb11.onrender.com.

WorkWhiz - Multi-Role Labour Job Portal 2024 – 2025

Django 5.x, PostgreSQL, Cloudinary, Render

- Built and deployed a full-stack job portal connecting workers and contractors with role-based dashboards, job posting, and a two-way rating system.
- Integrated Google Translate API to support 18 regional Indian languages with persistent language preference.
- Implemented secure authentication with email-based password reset, Cloudinary image uploads, and a live password-strength meter.
- Deployed in production with PostgreSQL on Supabase and environment-based configuration; live at workwhiz.onrender.com.

BuyCart - E-Commerce Platform 2025 – 2026

Django, Bootstrap 5, Stripe API, SQLite

- Built a full-stack e-commerce platform with separate customer and dealer portals, including product listings, cart management, and order tracking.
- Integrated Stripe API for secure end-to-end payment processing with a complete checkout flow.
- Developed a dealer dashboard for inventory management and rich-text product blogging using the Quill Editor.

EDUCATION

Vishwakarma Government Engineering College, Ahmedabad CGPA: 8.39 / 10
B.Tech in Information and Communication Technology 2023 – 2027

Shree J.M. Chaudhry Sarvajanik Vidhyalay 81.07% (School Rank 7)
HSC – Gujarat Secondary and Higher Secondary Education Board 2023

Shree J.M. Chaudhry Sarvajanik Vidhyalay 83.83%
SSC – Gujarat Secondary Education Board 2021

ACHIEVEMENTS

Participant - SBS Hack The Gap 2026 Jan 2026
National-Level Hackathon, Shanti Business School, Ahmedabad

Participant - Hack With Gujarat 2025
Organized by DevXpanse; built a full-stack Django web application under deadline

CERTIFICATIONS

Python Programming Course - Scaler Apr 2025

Data Visualisation: Empowering Business with Effective Insights - Tata (Forage) Apr 2025

Web Development Course Completion Certificate - LaunchEd Aug 2025
